

Highway Safety Inspectors' Refresher Training (LANTRA Approved)

This refresher course is intended for local authority highway inspectors who have completed the initial highway inspectors' course within the last five years and want to renew their qualification for a further five years

Course Overview

The importance of training to achieve and maintain an adequate level of competence in all areas of highway asset management, including highway inspection, is stressed in the current Code of Practice, Well-managed Highway Infrastructure, and the associated document, Highway Infrastructure Asset Management. The credibility of highway inspectors as witnesses in criminal or civil proceedings may depend on producing evidence of current qualifications.

This two-day refresher course is intended for local authority highway inspectors who have completed the initial highway inspectors' course within the last five years and want to renew their qualification for a further five years.

It provides a reminder of the knowledge and skills already gained on the initial course and an update on recent changes in guidance and developments in procedures. The course is delivered by experienced professionals in the field of highway safety and highway maintenance.

Aims and Objectives

This course is designed to fulfil the ongoing training requirements of local authority highway inspectors and to satisfy the requirements of the IHE certification scheme.

Topics Covered

Much of the course content is based on the guidance and recommendations of the revised code of practice, Well-managed Highway Infrastructure (2016).

Delegates are encouraged to read those sections relating to Highway Inspection prior to the course.

This two-day course focuses on two key areas (more details overleaf):

- | | |
|--------------|--|
| Day 1 | Highway Law & Inspection Policy |
| Day 2 | Hazard Identification & Control Measures |

+44 (0)24 7669 0900

- Legal challenges

Day 2

Hazard Identification & Control Measures

- Highway safety
- Types of construction defect
- Defect repair techniques
- Other highway defects
- 3rd party defects / s.81 NRSWA
- Options for making safe
- On-site assessment

Certification

The refresher course complies fully with the requirements of the IHE Inspectors Board for highway inspectors' training.

Successful completion of the course will allow delegates to retain their entry on the IHE National Register of Highway Inspectors. Delegates completing this course and passing all the assessments will receive a Certificate of Training, accredited by Lantra Awards.

Course Fees

For accurate information on pricing, please refer to the relevant website page.

Booking

To make a booking on the course please choose from the following options (via our website):

- Online booking
- Offline booking form (only available on request)

In-House Training

This course can be delivered in-house at your offices or at a suitable venue. In-house training can often work out more cost effective if you have several members of staff you would like to be trained at any one time.

If you would like a quotation or further information regarding our in-house training, please contact us using one of the enquiry forms on our website.
